

REVIVE CARE LIMITED

YOUR HEALTH, OUR PRIORITY

**QUALITY HOME CARE
SERVICES YOU DESERVE!**

ABOUT US

Revive Care Ltd's goal is to deliver quality home care services to you or your loved one. We take time to understand what makes life good for you, how you wish to achieve it and we suggest how best you can achieve it, as well as care, and support you while you reach your goal.

Our home care services enable you to live an independent life in a place you are most comfortable- your home. We are fully committed to you and at the centre of your care are your needs and preferences.

Our aim is to understand you and put your well-being, quality of life, and independence at the forefront of the care we deliver to you.

Our services

Revive Care Ltd's goal is to deliver quality home care services to you or your loved one.

Live-in care

Our Private Live-in care services provide you with a Carer that lives in your home day and night to care for and support you with all your daily tasks. The care and support range from medication management, to cooking, and personal care. Our Live-in Carers are professionally trained and deliver care and support to you or your loved one with dignity and respect.

Domicilliary care

When daily tasks such as cleaning your home, cooking, or doing laundry become too much, Revive Care Ltd is here to help you manage and live independently at home. Be it you are recovering from an accident or from hospital admission, our carers are available to give you the care and support you need.

We design a personalised care plan that suits your needs, interests, and living arrangements, making sure we encompass the way you do things in your home. You will always have complete control of the care and support you receive.

Companionship

Loneliness and isolation have been one of the challenges we are facing as a community. According to Age UK, there are over 1million people who are chronically lonely in the UK. Our companionship services are there to prevent feelings of loneliness and help you gain the confidence needed to live the life you desire.

Respite care

We all need a break from our jobs or duties at some point. Our respite care services enable primary caregivers the opportunity to have regular breaks from care giving duties knowing that a care professional is there to look after their loved one.

We continue caring for your loved one in your home continuing to do everything they do with the regular caregiver. We take time to learn your loved one daily routine and do our best not to deviate from it.

Specialist care

Revive Care Ltd provides care for those with specific medical conditions or illnesses. We are dedicated to improving the quality of life of you or your loved one ensuring that you are living a comfortable life.

Our highly trained Carers look after individuals with a very diverse range of complex needs. No matter your situation, we will tailor our care services according to your needs and expectations.

End of Life care

The diagnosis of an incurable disease can be a difficult time for you or your loved one. Our end of life care services allows you to maximise comfort while we ease the burden during these trying times. We work with different medical teams and try to make this possible.
